Conference Tracks

We had 7 tracks, each designed to foster partnerships and alliances in the Open Source ecosystem for accelerated deployment and development.

FOSS FOR EVERYONE: INDIA CONTRIBUTES?

23-24 Oct 2024

This year, the focus centered on Open Source and AI. The two-day track covered a range of topics, from building digital public infrastructure to developing infrastructure with Open Source tools. The insightful sessions were followed by a panel discussion on Rebuilding FOSS Networks in India.

DEVOPS ZONE: THE BEST APPROACH

23 Oct 2024

Attendees were introduced to DevOps best approaches along with introduction to CI/CD tools. GitOps dynamics and AI-enhanced observability for Kubernetes were also discussed.

DEVELOPERS' MEET: WHAT'S THE LATEST?

24 Oct 2024

Most of the talks were to enlighten developers with new and cutting edge open source techs that they can use. Use of AI in developments was highlighted too.

Conference Tracks

AI & ML: OPENING UP THE TECH

23-24 Oct 2024

With a lot happening around AI, the attendees gained insight on the topic. Sessions covered AI Ops to Multimodal Foundation Models followed by a discussion on Gen AI: The year that was and the year ahead.

DATA & BASES: OPEN SOURCE ROCKS!

24 Oct 2024

The session was all about the latest in the world of Open Source databases and how to manage your data and databases.

IT INFRA TALKS: SECURITY, STORAGE & CLOUD

24 Oct 2024

This track was more on discussion about open source tools and technologies that enable you to manage your IT Infra better. The sessions covered SONiC networking OS to cluster management tools.

CLARI TECH CONNECT: LOW CODE FOR 10X DATA ENG

23 Oct 2024

Opportunities included cutting-edge software innovations, data engineering, and technical discussions with Clari leadership.

GLIMPSES...

Our sincere gratitude towards our partners of 2024. Thanks for your support
